

ARES 65

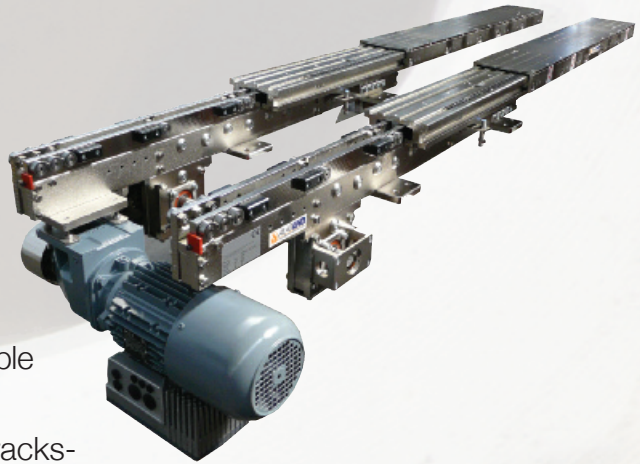

Typical telescopic fork that's particularly used in the sector of automated warehouses to move the 800x1200 euro-pallet.

The small size and the limited bending make it suitable for a large number of purposes.

As for the transmission system, both chains and racks-and-pinions are available, the choice of the transmission depending on the operating environment;

hence, it's recommended to consult LHD's technical staff.

PRODUCT CODE	Q LOAD (KG)	L FIXED BODY LENGTH (MM)	Ls UPPER SLIDE LENGTH (MM)	S1 STROKE (MM)	MAX BENDING UNDER LOAD (MM)
AR65-120	1200	1200	1200	1300	19
